

TENT/CANOPY REGULATION CHANGES TO BE IN AFFECT FOR THE WESTERN IDAHO FAIR

FLAME RESISTANCE: The sidewalls, awnings, drops, and tops of booths, tents, or canopies (any material membrane structure) shall be composed of flame resistant material or treated with an approved flame retardant. The use of non-treated material is prohibited during the hours the event is open to the public. All tents and canopies shall have a permanently affixed label or documentation in a pocket on the fabric indicating the flame resistance, a manufacturer's certificate, or a flame retardant seal.

IMPORTANT: If your tent or canopy is in question, it is the responsibility of the vendor to verify the flame resistance of their structure prior to occupying their space at the Western Idaho Fair. All tents and canopies will be inspected and those structures without proper documentation will not be allowed to remain standing.

TENT/CANOPY REGULATION CHANGES TO BE IN AFFECT FOR THE 2015 BOISE MUSIC FESTIVAL

FLAME RESISTANCE: The sidewalls, awnings, drops, and tops of booths, tents, or canopies (any material membrane structure) shall be composed of flame resistant material or treated with an approved flame retardant. The use of non-treated material is prohibited during the hours the event is open to the public. All tents and canopies shall have a permanently affixed label or documentation in a pocket on the fabric indicating the flame resistance, a manufacturer's certificate, or a flame retardant seal.

IMPORTANT: If your tent or canopy is in question, it is the responsibility of the vendor to verify the flame resistance of their structure prior to occupying their space at the 2015 Boise Music Festival. All tents and canopies will be inspected and those structures without proper documentation will not be allowed to remain standing.
